

## Follow the Money, Follow the Fraud

Ephesians 6:12 For we wrestle not against flesh and blood, but against principalities, against powers, against the rulers of the darkness of this world, against spiritual wickedness in high places.

Who am I? Why don't I vaccinate? Go to my website and sign up for updates, will send my notes for this talk

"If we've gotten to the point where forcing a medical procedure through coercion becomes lawful, and supported by authorities we're setting a precedent for a future without the human right to refuse things being done to their body without consent. I promise you that this is objectively immoral, and the beginning of the end if this becomes reality. Any supporter of forcing medical procedures will get what they deserve. Say no, don't negotiate with tyrants. This is the hill myself and many others will die on."

"It is hard to imagine a more stupid or dangerous way of making decisions than by putting those decisions in the hands of people who pay no price for being wrong."- Thomas Sowell

"Society has already had this conversation. At Nuremberg, and the #1 takeaway is consent.

Limiting people's access to society based on whether or not they subject themselves to a medical treatment removes consent and forces people to make decisions under duress.

The notion of a vaccine passport is perverse."

Penicillin and Peanut Butter are both allergens...some people can DIE if they take penicillin. Everyone else it cures. Am I anti penicillin? No, I'm anti anaphylactic shock, I'm anti-death!

## **Follow the Money**

Follow the money at every level.

Corporations bribe and lobby politicians to make sure that their products and goals are accomplished.

Fauci has long been in the game of corporate profiteering. Back in the AIDS days...it was him pushing AZT because he reportedly had patents and stock in the company manufacturing it. While other more appropriate treatments were suppressed...Fauci profited.

This happened with Covid and Fauci again...Hydroxychloroquin vs remdesivir  
<https://m.washingtontimes.com/news/2021/jun/9/follow-the-money-big-pharma-dr-fauci-and-the-death>

Follow the money....Merck...MMR....Julie Gerberding....William Thompson... Gardasil 3.2 Billion in 2018<sup>1</sup> VIOXX Class action 1 Billion dollars....do they care? Nope, profitable to injure.

## **What is the end game?**

Control of reproduction and who reproduces. First, making it a profit center. Abortion and the sale of body parts is profitable. Infertility is a very profitable industry. Most importantly, controlling WHO reproduces. Upper middle class families and above are most likely to be entrenched in the system and able to afford infertility treatments.

Covid Vaccines and HPV vaccines have been proven to render its victims infertile or dead. f

Average cost of IVF Treatment is \$20,000 Can be much higher if more cycles are needed<sup>2</sup>:

Bill Gates - History of Eugenics with his family, partnering with Planned Parenthood. Forced sterilization of poor and indigenous women.

## **Control of people:**

Censorship: Good ideas don't require force. Good ideas don't have to be hidden and censored. Big Tech

**Food:** Shut down traditional farming. Call it dirty, antiquated, etc.... Replace with insect protein and plant based farming. Bill Gates owns more farmland than any other individual in the US<sup>3</sup>.

Controlling our ability to grow our own food and provide for ourselves. Animal welfare and rights like those in Oregon...but you can only eat them if they die of natural causes. No longer raise them for meat. WATER rights...mega drought across the west, shutting down irrigation to crops and livestock. Meanwhile, Nestle corporation continues to steal water from Lake Michigan, companies in Arizona drill down thousands of feet to pump out the aquifer and flood their crops while homeowners are high and dry.

**Employment:** EEOC “Employers that are administering vaccines to their employees may offer incentives for employees to be vaccinated, as long as the incentives are not coercive.”<sup>4</sup>

**Title VII** of the Civil Rights Act of 1964 prohibits employment discrimination based on race, color, **religion**, sex, and national origin.  
First Amendment...stand on it.

Healthcare:

Corporate HELLscape... not health scape.  
Choice is being removed in healthcare. Alternatives to expensive pharma drugs are actively suppressed or even prosecuted as criminal in order to prevent people from taking care of their own health.

Fraud in Healthcare:

Who is getting paid? How long can this continue?

If this was about your being healthy....what would the recommendations have looked like? Long walks in the sunshine and fresh air? Encouragement to eat fruits and vegetables? Urging us to destress and meditate?

If you want a sick population, what would you recommend? Wearing a mask to restrict breathing freely? Staying inside, out of the sun? Would you keep McDonald's open and shut down health food stores and gyms? Would you keep people stressed and in a constant state of fear?

It's a Spiritual Battle:

Luciferase:

Government: John 10:10 A thief comes only to steal and slaughter and destroy; I came so that they might have life and have it more abundantly.

Government agencies, like OSHA, are ostensibly formed to protect the citizens of this country. Here is an example of how OSHA does NOT have your back with the Covid vaccine:

Are adverse reactions to the COVID-19 vaccine recordable on the OSHA recordkeeping log?

DOL and OSHA, as well as other federal agencies, are working diligently to encourage COVID-19 vaccinations. OSHA does not wish to have any appearance of discouraging workers from receiving COVID-19 vaccination, and also does not wish to disincentivize employers' vaccination efforts. As a result, OSHA will not enforce 29 CFR 1904's recording requirements to require any employers to record worker side effects from COVID-19

vaccination through May 2022. We will reevaluate the agency's position at that time to determine the best course of action moving forward.<sup>7</sup>

OHIO has before its assembly HB 248<sup>8</sup> The Enact Vaccine Choice and Anti-Discrimination Act

TEXAS Greg Abbott's Executive Order<sup>9</sup> is Great on the surface, but will not offer you the kind of real protection you need when you need it. Forbidding the requirement to provide documentation of your vaccination status is NOT the same as forbidding any requirement for you to take that vaccine as a condition of employment, education or free movement in society. Forbidding the requirement of a vaccine under EUA is NOT the same as forbidding any requirement to take a medical treatment you don't want. NO is NO. My body, my choice. Where there is risk, there must be choice.

## **SOLUTIONS:**

Withdraw your consent! In every way that you can, disassociate from them and stop feeding the beast.

Do you currently use a doctor in the IU health system? Can you change to a different doc and a different system? Do it.

If you use prescriptions, have you researched the corporate practices of where you buy your meds? Can you switch your spending to a corporation more inline with your beliefs?

Are there alternatives to escape their system entirely? Farmer's Markets.

The root of the evil is the money system, the Federal Reserve. Consider buying and using crypto - BTC is trackable and traceable. ARRR is completely private. Find out about and use VPN

Refuse to comply! They will bully you as much as you allow them to.

Yes, it may cost you in the short term. We must be long term thinkers. Those engineering these changes have been working for generations to enslave us.

If you choose to vote, you MUST vote for what you want...NOT out of fear that the "other team" will win. Vote different. MOST Libertarian candidates are solidly on the side of freedom and liberty, personal choice and responsibility.

Don Rainwater came in SECOND in 34 out of 92 Indiana Counties. It is absolutely possible to win and have someone advocate for you that is not profiting from you. Someone whose motives are preserving liberty for themselves and their posterity.

They have been using the carrot and stick approach to us....well tell them:

"I don't want your jankass carrots and I'm not afraid of your damned stick!"
